

645E Rapid Wind Grip

Cat. # 211-131

PRODUCT
INFORMATION
FEBRUARY 2000

With the recent introduction of the new low-priced Mamiya 645 camera, we are pleased to announce a new accessory for the camera, the new Rapid Wind Grip.

The grip is ideal for convenient, comfortable and fast hand held use of the new economical medium format camera.

The new 645E Rapid Wind Grip provides an ergonomic right-handed hold for the camera, and offers a double stroke rapid wind lever that simultaneously performs shutter cocking and film advance.

This is a great new accessory which will add to the success and ease of operation of the new 645E camera.

Shipments will start by the end of March, 2000.

We are including an order form for the new 645E camera as well one for the Rapid Wind Grip, and a new dealer price list page now listing this accessory.

Specifications:

Film Advance Lever:	Double stroke
Shutter Release Lock:	Yes
Tripod Socket:	U 1/4 in and U 3/8 included
